

Quick Pricing Tool

The Cisco Quick Pricing Tool (QPT) is designed to help you quickly generate a bill of materials and estimate pricing for Cisco solutions addressing the needs of small to midsize customers. Using a clear graphical interface and user profiles, account managers can easily select products and options without the need for technical assistance.

The products covered are:

- [Cisco Unified Communications Manager Express](#)
- [Cisco Unified Communications Manager Business Edition 4000](#)
- [Cisco Unified Communications Manager Business Edition 6000](#)
- [Cisco Spark Named User](#)

For your convenience, QPT is accessible offline through desktop

- Allows quotes to be completed on-site directly with customer, without network connectivity
- Software needs to be installed on PC
- **Link to download and install the tool:**
